

Emerging Giants (Good & Clean small cap) – April 2018

Ambit's Emerging Giants portfolio aims to invest in small-cap companies with market dominating franchises and a track record of clean accounting, governance and capital allocation. The fund typically invests in companies with market caps less than 2500cr. These companies have excellent financial track record, superior underlying fundamentals (high RoCE, low debt) and ability to deliver healthy earnings growth over long periods of time. However, given their smaller sizes these companies are not well discovered, owing to lower institutional holdings and lower analyst coverage. Rigorous framework based screening coupled with extensive bottom-up due diligence lead us to a concentrated portfolio of 15-16 emerging giants.

- **Rigorous stock selection process:** Starting at a relative large investible universe of about 1,300 small caps, Ambit's proprietary frameworks along with extensive bottom-up research helps create a concentrated portfolio of 15-16 companies at any time. The process focuses on identifying companies which in addition to being clean on governance and accounting, have business models that are profitable, scalable, sustainable and self-funding for their growth requirements.
- **Long term horizon/low churn:** Our holding horizons for investee companies are 3-5 years and even longer with annual churn not exceeding 20-25% in a year. The long term orientation essentially means investing in companies that have the potential to sustainably compound earnings, with this earnings compounding acting as the primary driver of investment returns over long periods.
